## Newly Redesigned Suites at Residence Inn Alexandria Old Town/Duke Street Inspire Productivity, Promote Relaxation at \$3.5M Price Tag

*Suites at Old Town Alexandria hotel now feature new furniture, lighting, carpet, drapes and artwork for professionals conducting business near the nation's capital*

**Alexandria, VA** – Making a capital investment in comfort, [Residence Inn Alexandria Old Town/Duke Street](#) has just unveiled its completely reimagined suites thanks to a \$3.5 million renovation.

Professionals in town to conduct business in the nation's capital, just a short metro ride away, will

appreciate stylish new quarters where working, relaxing, dining and slumbering are anything but common in the Commonwealth. Suites at the Old Town Alexandria hotel have undergone a floor-to-ceiling remodel that includes new furniture, carpet, drapes, wall vinyl, lighting and artwork.

Rich wood cabinetry in kitchens and bathrooms complement the neutral palette reflected in paint and carpet colors in all spaces. New local artwork and comfy accent pillows provide pops of gold, orange, purple and pink to add flair, energy and excitement. New stainless-steel refrigerators, stoves and dishwashers in fully equipped kitchens exude sophistication and offer convenience for colleagues and business associates on an extended visit. The hotel continues to provide silverware, pots, pans, serving dishes and glasses. Complimentary grocery shopping service affords visitors extra time since they can leave a shopping list with friendly Residence

Inn team members and return to a fully stocked refrigerator and pantry.

With productivity being a high priority, all Alexandria hotel suites boast comfortable new desk and dining chairs where business travelers can take care of any tasks that require immediate attention while away from the office. Studio suites also received new desks positioned near windows to spur creativity while guests take in breathtaking views of the surrounding area. Plenty of accessible power outlets are available

to recharge electronic devices before a long day of strategic planning. High-speed Wi-Fi continues to be a complimentary perk for any travelers who choose Residence Inn.

Downtime is just as important as work time, so suites at the Alexandria hotel offer new couches where visitors can unwind, enjoy a meal and catch their favorite programming on flat-panel TVs with premium movie and cable channels including CNN, ESPN and HBO. Living rooms sport ample lighting to read a book before heading out on the town or straight to the bed.

Designers focused on the details, too, when reinventing the suites at the hotel in Alexandria. Additional features that business travelers will appreciate include new closet mirror doors for prepping before an important meeting and stylish drapes that can be opened to let in natural light or shut when it's time for some shut-eye.

### **About Residence Inn Alexandria Old Town/Duke Street**
